

## Year 11 into 12 Transition Task One

Subject	Chemistry
---------	-----------

This work is intended to support your ability to successfully make the transition to A Level study. You **do not** need to send this work to us.

Regardless of whether you studied separate Chemistry or Combined Science, you will need to have a solid base of key skills before the start of the course. The work set here is designed to develop your understanding of practical work and mathematics in Chemistry.

### Tasks

The work is all based on [this document](#). Follow the link and...

1. If possible, print the 'Retrieval Questions' section and use look, say, cover, write, check to learn and test yourself on them. Repeat several times over the two week period.  
If you can't print, consider copying them onto flashcards or post-it notes.
2. Read the rest of the material and complete the practise questions.

If you have any questions, please email [science@manor.school](mailto:science@manor.school)
